ABOUT XOVICA COMPANY

Welcome to **XOVICA INDUSTRIES**, a global leader in the manufacture of dental instruments. With a steadfast commitment to quality and innovation, we provide dental professionals around the world with precision tools designed to enhance patient care.

Founded on the principles of excellence and integrity, **XOVICA INDUSTRIES** has established itself as a trusted name in the dental community. Our extensive product line includes surgical instruments, diagnostic tools, and hygiene products, all crafted with the most care and precision. We utilize cutting-edge technology and superior materials to ensure our instruments meet the highest industry standards.

What sets us apart is our dedication to our customers. We believe in building strong partnerships with dental practitioners, distributors, and educational institutions, understanding their unique needs and delivering tailored solutions. Our customer service team is always ready to assist, ensuring a seamless experience from inquiry to delivery.

As we expand our global footprint, we remain committed to sustain ability and ethical practices, striving to reduce our environmental impact while promoting health and safety in dental care.

At **XOVICA INDUSTRIES**, we are not just a manufacturer; we are your partners in achieving dental excellence. Join us in our mission to improve patient outcomes and elevate the standards of dental practice worldwide.

Thank you for choosing **XOVICA INDUSTRIES**. Together, we can create a healthier future for all.

With Profound Regards

C.E.O.

Manual Bone Mill, Holding & Drilling Forceps

Ideal for Chairside Preparation of Autogenous Bone Grafts Bone Morselizer Bone Morselizer

Xi-iM-061

1. Adjust the spacing screw (located at the hinge of the handles) to the desired spacing requirements between knurled surfaces.

BONE MORSELIZER
The Bone Morselizer is a hand instrument which helps in the crushing of bone material.
Follow these steps to prepare properly crushed bone:

2. Place the bone material into the bone well.

3. Compress handles together in order to create pressure on the bone material.

4. Turn the bone morselizer clockwise as the handles are squeezed. Always maintain a slight space between the two knurled surfaces, by using the spacing screw.

5. To remove bone, press the T-handle and bone will express from the bone well.
